

Mary Bradshaw's brief biography.

My educational background consists of three degrees—B.A. and M.A. in Sociology and a M.P.H. (Master's Degree in Public Health). My work experience has been in education, statistics, and public health consulting. I am now retired with more time to devote to a long and abiding interest in protecting our environment. I have been an active member of the Sierra Club since 1987 and served as the political chair of the Alamo Chapter for five years. I am a member of several other environmental organizations as well.

In 1981, my husband and I built an earth-sheltered house in the Hill Country and established our acreage in 1994 as a “Backyard Wildlife Habitat” by both Texas Parks and Wildlife and the National Wildlife Federation. The property remains so today. Spotting and protecting many wild animals and various species of birds on our land has been a constant source of pleasure for us. We can only hope that others can see the urgent need to protect these important creatures, especially the endangered ones, for generations to come. Such an effort has to come from both landowners who want to preserve the land as a refuge to protect the wild birds and animals and those who see the land as a money-making endeavor.

KIRBY BROWN
Vice-President for Public Policy
Texas Wildlife Association

Kirby is a graduate of Texas A&M University with an M.S. in Wildlife Science and worked 25 years as a wildlife biologist with the Texas Parks and Wildlife Department before joining Texas Wildlife Association. At TPWD served as Director for Private Lands and Public Hunting Programs prioritizing wildlife management planning for private landowners, developing the Private Lands Advisory Board and the Lone Star Land Steward Awards, assisted in the passage and implementation of the landowner liability cap, prescribed burning protections, solutions for endangered species issues, and other legislation; increased public hunting land to 1.4 million acres, and highlighted youth hunting programs.

Kirby served as Executive Vice President of the Texas Wildlife Association (TWA) for seven years, and recently moved into the role of VP for Public Policy. Brown has participated in numerous meetings and hearings at the local, regional, state and national level advocating TWA's wildlife management, water, land stewardship and private lands philosophies, policies and positions. He has served as Chair of the legislatively directed Camp Bullis Advisory Committee to the Task Force on Economics and Endangered Species, on TPWD's White-tailed Deer Advisory Committee, Quail Council, Upland Game Bird Committee, Migratory Game Bird Committee, several Association of Fish and Wildlife Agency committees, Governor's Committee on Hunting Heritage, on the Steering Committee and as Chairman of the American Wildlife Conservation Partners (coalition of 40 major national hunting organizations), founded and chaired the Texas Outdoor Partners (coalition of 60 Texas hunting and fishing organizations), and is Vice- Chair of the Texas Ag Council.

Information on Delmar Cain

I was born in Smackover, Arkansas in 1942, but my family moved to Gladewater, Texas in 1944. Although my father worked for Texaco his main interests were hunting, fishing and occasional forays into farming. I developed a general interest in nature by tagging along with him. As I grew older my interest changed from hunting to learning more about the plant life and the animals, but I can regress quickly upon encountering the foraging signs of a raccoon, armadillo, or deer.

I received a BA from Baylor and a law degree from UT. After law school I was an FBI Agent; but upon returning to Austin I worked in a private law practice, as an Assistant DA, and as Assistant Attorney General. After serving 9 years as General Counsel for the Texas A & M System in College Station, I retired in 2005; and my wife and I moved to Boerne. As of June 2009 I am listed as "Inactive" with the State Bar of Texas.

My wife and I live outside of Boerne on 6 1/2 acres in River Mountain Ranch, an area rich in animal life and native plants. I served a two-year term on the board of the Friends of the Cibolo Wilderness and a two-year term as Vice-President of the River Mountain Ranch POA. I am the president-elect of the Boerne Chapter of the Native Plant Society of Texas (NPSOT). I volunteer for various research projects at the Cibolo Nature Center, including jointly leading the novice friendly Boerne Birders with Jerry McFarlen.

My wife and I have two married sons, both in Austin, and two grandchildren.

IAN CUDE, P.E.
Principal / Vice President
M.W. Cude Engineers, LLC

Ian Cude is a Principal at M.W. Cude Engineers, a civil engineering firm that provides quality engineering, surveying, and planning services for a wide variety of land development, municipal, public works, and transportation projects in the South Texas region. After graduating from The University of Texas at Austin with a Bachelor of Science in Civil Engineering, Ian moved back to his hometown of San Antonio and began developing relationships with many of the largest educational, residential and commercial property owners and developers in the area. Ian was named the TSPE Young Engineer of the Year in 2006 and continues to participate in several industry-related professional and civic organizations. He is currently serving as a Director in the Texas Society of Professional Engineers (TSPE) and is involved with the Bexar Chapter of Professional Engineers in Private Practice (PEPP).

Ian is also an active member of the Real Estate Council of San Antonio (RECSA), an advocate for property owners and professionals in the real estate industry that supports efforts to ensure a healthy economy and enhanced quality of life in the greater San Antonio area. As San Antonio's real estate industry generates about 1/6 of the area's economic output and employs more than 142,000 people, RECSA encourages a responsible long-term approach to solving challenges in the development process to ensure economic development and quality job creation. Ian participates in the City of San Antonio Development Task Force through the Government Affairs Committee and was a member of the RECSA Leadership Development Program inaugural class.

Ann Dietert
106 Green Meadows Dr.
Boerne TX 78006
830-249-7077

I am part owner of a family ranch located in eastern Kerr County, just west of Comfort, Texas. Our half of the original ranch has been in the family since 1883, handed down to the fourth generation now. I am very much interested in maintaining the natural habitat on ranch as much as possible. It is currently leased for cattle and hunting.

I am a graduate of the University of Texas in Austin, with a Bachelor of Science degree, and a graduate of University of San Antonio with a Fine Arts degree. I am currently employed by Methodist Hospital in San Antonio but hope to retire in the coming year. I took the Master Naturalist program and do volunteer work at the Cibolo Nature Center and through the Boerne chapter of the Native Plant Society of Texas. On our ranch I maintain twelve bird nesting boxes and have planted (and fenced) a number of native tree species. I enjoy trying to protect and continuing to learn more about the natural world around us.

Bebe Fenstermaker, SEP-HCP Citizens Advisory Committee, Landowner Representative

Rancher, writer, artist, retired college professor

Degrees: University of Texas Austin (BFA), UTSA (MFA)

I have been involved with regional preservation and conservation issues and organizations for 30+ years, including: Hill Country Planning Association, board member; Hill Country Alliance, advisory council; Hill Country Land Trust, board member; Scenic Loop-Boerne Stage Alliance, board member; Bexar Land Trust, steering committee and board member; USFWS Black-capped Vireo Recovery Plan, panel member; Government Canyon Steering Committee, Hill Country Land Stewards, Rangeland Environmental Issues Forum (REIF), Cattlemen's Texas Longhorn Registry, Native Plant Society of Texas, Preservation Texas, certified Master Naturalist.

I live on the historic Maverick Ranch-Fromme Farm in Bexar County, acquired by my great-grandparents in 1907. My family raises Texas Longhorn cattle from original lines and maintains habitat for native wildlife including endangered species. My home contributes critical resources which are the foundation of the region.

Mary Fenstermaker, Environmental Groups Representative, SEP-HCP Citizens Advisory Committee

Degrees: MS Environmental Studies – UTSA; BA History – University of Texas, Austin.
Rancher, writer, ceramicist

I have been interested and involved with local and regional environmental and historical issues and organizations for many years: Hill Country Planning Association board chairman, Scenic Loop-Boerne Stage Alliance board member, Government Canyon Steering Committee, Texas Nature Conservancy board member, Hill Country Land Stewards, Cattlemen's Texas Longhorn Registry, Preservation Texas, Native Plant Society of Texas, certified Master Naturalist.

My home is the Maverick Ranch-Fromme Farm in northwest Bexar County. For four generations the family has valued and encouraged native wildlife populations as part of the land. We conduct annual censuses for Golden-cheeked warblers and Black-capped vireos. I look forward to working on the SEP-HCP.

February 5, 2010

Biography of Dr. Robert T. Fitzgerald

I am known as Dr. Bob by my friends, and I am 79 years old. I was born in Ohio, moved to Alabama when I was ten and graduated from high school at Auburn and pre-med at Auburn University. I obtained my medical degree from the University of Alabama at Birmingham in 1955, and came to Texas in 1965.

After a 22-year career in the US Air Force as a neurosurgeon, I retired from the military and went into private practice of neurosurgery in San Antonio in 1981.

When I retired from my medical practice in 1993, I devoted my time to my ranch in Quihi, Medina County, Texas, raising pecans and coastal hay, and leasing part of my land to a neighbor to raise cattle and grain. I was elected president of the Medina County Environmental Action Association, Inc., (MCEAA) in year 2000, and still hold this office. The MCEAA networks with many other environmental groups.

I have always been interested in protecting the environment, and my agricultural experience and my work in the MCEAA has demonstrated to me that we all must do what we can to ensure that Texas' land, water and environment are preserved. I look forward to participating and contributing to the CAC.

Dr. Robert T, Fitzgerald
830-741-5040
202 CR 450
Hondo, TX 78861

Mr. Charles P. “Frosty” Forster, P.E., P.G.

Place of Residence: San Antonio, Texas (Carrizo Springs, Texas native)

Current Occupation: Vice President, Environmental, Pape-Dawson Engineers

Educational and Professional Background:

- BS degree in Geology, Sul Ross State University, 1976
- MS degree in Interdisciplinary Engineering, Texas A&M University 1981
- Registered Professional Engineer in Texas, Arizona, and New Mexico
- Registered Professional Geologist in Texas and North Carolina

First 20 years of professional career spent in the uranium, coal, gold, and gypsum mining industry. Worked on numerous domestic mining projects throughout the United States. Extensive international mining experience in Canada, Mexico, Dominican Republic, Venezuela, Germany, Turkey, and Australia. Currently Vice President , Environmental for Pape-Dawson Engineers responsible for management and technical oversight of the firm’s environmental services.

Civic/Community Involvement:

- Texas Society of Professional Engineers – Board of Directors and Past President
- Professional Engineers in Private Practice – Board of Directors, Director of Geotechnical and Environmental Affairs
- San Antonio North Chamber of Commerce – Board of Directors Member
- San Antonio North Chamber of Commerce - Government Affairs Council Member
- Association of General Contractors – Member
- o Alamo RMA US 281 EIS Citizen’s Advisory Committee Member
- The Nature Conservancy – Member
- World Wildlife Federation – Member
- Ducks Unlimited – Member
- Defenders of Wildlife - Member
- Sierra Club – Member
- Catholic Relief Services
- Mercy Corps International

Hobbies/Interests:

International and domestic travel, world history, national parks, bird hunting in Argentina, running, hiking, and ranching.

Deirdre Hisler began her career with Texas Parks and Wildlife Department in the State Parks Division on December 6, 1986 at Guadalupe River State Park. In November of 1997, Deirdre was "temporarily" assigned as the Interim Superintendent of Government Canyon State Natural Area for a proposed two month period.....but has remained there ever since where she was able to contribute to the grassroots efforts in the opening of one of TPWD's newest State Natural Area as well as more than double the acreage of the Natural Area from 5,839 acres to its present size of 11,588.4754 acres

During her tenure as a State Parks employee Deirdre organized and implemented the Annual Upper Guadalupe River Clean-Up activities for a 10 year period; held Board of Director positions with the Guadalupe River Association, The Water Oriented Recreation District of Comal County, Friends for Rivers, the San Antonio Advisory Board of the Trust for Public Land and is the current Chairman for the City of San Antonio's Conservation Advisory Board – Edwards Aquifer Protection Program which is charged with providing input and advice to staff and the City Council regarding the acquisition of sensitive land over the Edwards Aquifer in a 90 million dollar voter approved sales tax initiative.

She is a "proud" graduate of the Class V of TPWD's Natural Leaders program and the 3rd Class of the Texas State Parks "Managing Park Operations" 3rd.

Thomas H. Hornseth, P.E.
Comal County Engineer

Graduate of the University of Minnesota, BS Civil Engineering

Texas Registered Professional Engineer

Was appointed by the Comal County Commissioners Court in 1992 to the position of County Engineer. County Engineer responsibilities include operation of the County Road Department, administration of Subdivision, Floodplain, Addressing, and Sewage Facility regulations, and management of the Parks Department and Rural Recycling. Involved in all aspects of the development of the proposed Comal County Regional Habit Conservation Plan.

Sandy Jenkins

Sandy Jenkins has been with the City of San Antonio since February 1998 and served the Neighborhood Action Department, City Manager's office, Development Services, Animal Care Services and Parks and Recreation Department. She currently responsible for Natural area parks, tree maintenance and mitigation, park improvements projects such as new playground construction, special projects, land acquisition and dedication.

Education

St. Mary's University – BA, Mathematics and MA, Communications

Sandy and her husband Matthew have two children, Matthew, Jr. and Mandy. They own 118 acres of natural area in Guadalupe County which is also managed for wildlife and own a home in Bexar County.

Randall T Johnson
PO Box 12928
San Antonio, TX 78212-0928
830-510-4802
Rjoh987134@aol.com

Date of Birth: August 23, 1947

Place of Birth: San Antonio, Texas

Education: Graduated from St. Mary's University in 1971 with BBA

Business experience: Owner of two wholesale floral companies in San Antonio. Started working at these family owned businesses at age 13. Sold businesses in 1993.

Residence: In 1963 moved to the Lazy K Ranch in Medina County and reside there today.

In 2005 was one of the founders of the San Antonio Geronimo Valley Alliance (SGVA) whose mission statement is **To preserve and protect the rural quality of life and natural resources in northwestern Bexar and northeastern Medina counties, including San Geronimo Creek and Valley and the Edwards and Trinity Aquifers of Texas.**

In 2006 became President of SGVA. Our goal was to stop the construction of a sewer plant over the Edwards Aquifer Recharge Zone and to lessen the density of a planned subdivision.

Jonathan Letz
Cherry Creek Ranch
1656 Lane Valley Road
Comfort, Texas 78013

I am a sixth generation resident of Comfort. I am married and my wife's name is Karen. We have two children Sam age 6 and Gus age 4. I live on and manage our family's ranch that my family purchased in the 1930's. The ranch is located in southeastern Kerr County in the rugged terrain that divides the Guadalupe River and Medina River watersheds. We raise cattle, have a whitetail deer hunting operation and manage the wildlife.

In 2002 Our family received the Lone Star Land Steward Award for the Edwards Plateau Region. In 2003 Cherry Creek Ranch was recognized by the Texas Parks and Wildlife Department for "15 Years of Quality Wildlife Management." The University of Texas and Texas A & M University have both conducted graduate studies on the ranch.

In 1996 I was elected Kerr County Commissioner, Precinct 3. I have been re-elected in 2000, 2004 and 2008. As a commissioner I have worked hard on issues related to private property rights, water resources and subdivision rules and regulations. In 1998 I was appointed to the Plateau Water Planning Group (Region J) and have served as its chair since that date. In 2009 I was appointed to a statewide task force for review county subdivision regulations and authority.

Prior to returning to manage our family ranch, I worked for Exxon Corporation from 1981 to 1988. I am a Graduate of the University of Texas at Austin with degrees in Business (1979) and Petroleum Land Management (1981). I am a former Trustee and President of the Comfort Independent School District and serve on many local community and civic organizations.

Bob Liesman

Raised in Boerne; have lived in San Antonio since 1972.

Graduated from UT-Austin with degree in Civil Engineering.

Worked for SAWS' predecessor, City water Board, for six years; employed with current Firm ,
MBC Engineers, since 1978. Currently Sr. VP

Married with two children: one attending A&M, one at Tejeda Middle School.

SOUTHERN EDWARDS PLATEAU
HABITAT CONSERVATION PLAN
CITIZENS ADVISORY COMMITTEE

BIOGRAPHICAL SKETCH
GERALD D. MCFARLEN

Designated Representative of the Cibolo Nature Center, Boerne, Texas

Mr. McFarlen is a native of Corpus Christi, Texas, who has resided in the Boerne area since 1988. An attorney licensed in Texas and Federal courts since 1981, he practiced civil litigation, appellate and insurance law as a partner with Brin and Brin, P.C., a regional law firm in South Texas for 23 years prior to opening the Law Office of Gerald D. McFarlen, P.C., last August.

He is a founding and current member of the Board of Trustees of the Cibolo Conservancy, a regional land trust dedicated to the preservation and conservation of natural and cultural resources of the Cibolo Watershed and surrounding Texas Hill Country. He has been an active volunteer of the Cibolo Nature Center for over 20 years, and leads Boerne Birders, a group of CNC volunteers who provide guides and educational resources to recreational birders in the Hill Country, and contribute to ongoing ornithological citizen science projects.

He is the proud husband of Jan Wrede, the long-serving Education and Research Director at the Cibolo Nature Center, and author of *Trees, Shrubs and Vines of the Texas Hill Country*, a field guide published by Texas A & M Press. They have a son and a daughter who also love the Texas Hill Country.

Lottie Millsaps

- Resided in Oakland Estates in NW Bexar County for 53 years
- Longtime member of The Native Plant Society of Texas-SA Chapter and Boerne Chapter
- Member of Alamo Area Master Naturalists (Attended First Class offered)
- Served several years on Friends of Friedrich Wilderness Park Board
- Volunteered as interpretive guide at Friedrich WP, Eisenhower Park, Cibolo Nature Center, Government Canyon, Leon Valley Wilderness Park...specialty: native plants, botany
- Collected and prepared specimens for the Bexar Regional Herbarium now housed at University of The Incarnate Word

I am personally very concerned about the loss of habitat for all species so obvious in our area and am pleased something is now being planned to protect and restore our treasured legacy.

Jennifer (Jen) Nottingham
210-695-1554 #4
jennottingham@satx.rr.com

I grew up in Grey Forest, left for UT Austin to get a BS EI Ed, and was gone for 20 years. My husband and I moved back to Grey Forest from Boerne almost 20 years ago. I retired from the Texas Public School system after 28 years, during which time I joined the Grey Forest VFD where I am currently the Training Officer and Board Secretary. After retirement, I was elected to the Grey Forest City Council, where I am finishing my 3rd term, and accepted the position as Coordinator Palo Alto College EMS Training Program which has given me the opportunity to build the EMT program from scratch. During this last year, I have served as the GF City Council Project Manager for the creation of the Senator Frank L. Madla, Jr, Natural Area. I am a founding member and GF City Council liaison to the Grey Forest Historical Society, which has been working on historical designation for the entire city of Grey Forest. I am a founding member and current President Scenic Loop ~ Boerne Stage Alliance (SLBSA) which won a Preservation Texas Award in 2009 for Most Endangered Places. I am also a founding member and Immediate Past Chair of the Hill Country Planning Association (HCPA). I have been appointed by our County Commissioners to the Watershed Improvement Advisory Committee (WIAC) as the Leon Creek representative for Bexar County.

I look forward to this current challenge of being a governmental rep during the formative stages of the SEPHCP.

Annalisa Peace holds an MS in Urban Administration from Trinity University. She has over fifteen years experience working with non-profit organizations in a variety of capacities, including as a grants administrator with the City of San Antonio's Office of Cultural Affairs, Executive Director of Youth Orchestras of San Antonio, and Director of Development of the Carver Community Cultural Center. She has been instrumental in organizing citizens' campaigns, including Aquifer Guardians in Urban Areas and Smart Growth San Antonio, and served in various capacities on governmental advisory boards, including as co-chair of the Kelly Air Force Base Restoration Advisory Board, on the City of San Antonio Open Space Advisory Board and as AGUA representative on the City Task Force that drafted San Antonio's water quality rules.

Ms. Peace is presently the executive director of the Greater Edwards Aquifer Alliance, uniting 25 organizations throughout a 21 county region in Central and South Texas behind a plan to protect the Edwards Aquifer and its contributing watersheds. She has been instrumental in organizing citizens' campaigns, including Aquifer Guardians in Urban Areas and Smart Growth San Antonio, and was part of the City Task Force that drafted San Antonio's water quality rules.

Biography of Gary Schott

Gary William Schott was born in 1947 and for the past 50 years he has farmed and ranched. He was blessed to live on land his grandfather acquired in the 1800's and still lives and ranches on the same land which is located 10 miles north of Helotes.

Gary has been married to Madelyn Saathoff Schott for the past forty years and they have 3 children, Hank, Luke and Katie, who are now married and live on the Schott San Geronimo Valley Ranch.

He has been involved in the community for many years and has helped accomplish major changes. He has helped organize and has participated in the following organizations.

- | | | |
|--------------|---|------------------------------|
| 1983-Present | Helotes 4-H AG Booster Club | Present Office: President |
| | Group purchased 2.5 acres and built a 10,000 sf facility in Helotes | |
| 2005-Present | Emergency Service District #7 | Present Office: Commissioner |
| | Board of Directors has built on fire station and opened a second Fire Station on Bandera Rd. | |
| 1985-Present | Bexar County Junior Livestock Show | Director – Treasurer |
| | BCJLS has recently acquired 47 acres on which a facility for the Bexar County Show. | |
| 1990-Present | Walter Gerlach Livestock Show | Director |
| | Presently Steer and Poultry Superintendent | |
| 2002-Present | Alamo Soil & Water District #330 | Director – Chairperson |
| 2005-Present | San Geronimo Valley Alliance | Member |
| | Group of individuals that are environmentally interested in San Geronimo Valley and Hill Country development. | |

The future for not only his family but future generations and our natural resources is one of his main interest and concern.

Clark D. Terrell

- Self-employed physician (solo-proprietor, psychotherapy and psychiatry) and educator (volunteer Clinical Professor, Department of Psychiatry, UTHSCSA)
- Homeowner in Country Bend subdivision, Boerne Stage Road, Bexar County
- Involved with volunteer conservation activities (primarily avian and habitat census projects) for over 25 years

Jenna V. Terrez

Jenna Terrez has been with the Environmental Planning & Compliance Department at CPS Energy since 1999. She is currently the Supervisor for the Material & Resource Management section. She oversees a staff of Environmental Analysts that are responsible for waste and resource management, along with providing regulatory, permitting, reporting, and environmental strategy services for CPS Energy.

Since 2007, Jenna oversees the environmental impacts (cultural resources, endangered species, geological, and karst) on new transmission lines and gas projects.

In 2001, she developed a comprehensive tree program for CPS Energy. She established and spearheaded the Alamo Forest Partnership as a cooperative effort between 13 organizations to conduct two Urban Ecosystem Analyses for the Bexar County Region which demonstrate the environmental and economical benefits that trees have on the air, water, and energy conservation. She also served as the Chair of the Local Arrangement Committee for the 2003 American Forests National Conference held in San Antonio, Texas. As result of the revised City of San Antonio Tree Ordinance, she coordinated and established procedures for tree preservation and mitigation. Jenna is currently working with the City of San Antonio in developing and administrating a city-wide tree planting program for energy savings.

Jenna has acquired a board working experience and knowledge. She has coordinated transformer oil spill cleanup and response, conducted remediation activities on sites with historical spills in accordance with Texas Risk Reduction Program, administers the Class I & II waste streams classification, transportation, and disposal activities, in addition, administers the contracts for waste disposal, waste transportation, and construction debris recycling. She has conducted Phase I Environmental Site Assessments. Other duties include coordinate and maintain budget responsibilities and has lead several project improvement teams in developing a corporate environmental awareness training program, implementing a corporate recycling program, and participated in researching alternative fuels for our fleet vehicles.

Ms. Terrez has a B.S in Bioenvironmental from Texas A&M in College Station, Texas and a M.S. in Environmental Science from the University of Texas at San Antonio. She is a Registered Environmental Manager and member of the Air & Waste Management Association and National Association of Environmental Professionals. Jenna has also served as Secretary, President-Elect and President for the CPS Energy employee networking group HOPE (Hispanic Organization for Public Employees) and is currently the Treasurer of UMAST (Urban Manager Assistants of South Texas).
