Public Meetings Scheduled on the Southern Edwards Plateau draft Habitat Conservation Plan and draft Environmental Impact Statement

The U.S. Fish and Wildlife Service (Service), in cooperation with the City of San Antonio and Bexar County will conduct public meetings in Helotes, Texas and Kerrville, Texas, to obtain comments on the Southern Edwards Plateau draft Habitat Conservation Plan (dHCP), draft Environmental Impact Statement (dEIS) and an incidental take permit application.

The Southern Edwards Plateau dHCP outlines conservation actions designed to ensure that development occurring in one of the most rapidly growing areas of the country will not jeopardize the survival of the golden-cheeked warbler, black-capped vireo, Government Canyon Bat Cave spider, Madla Cave meshweaver, Braken Cave meshweaver, Government Canyon Bat Cave Meshweaver, Helotes mold beetle, and two ground beetle species, each of which has no common name (*Rhadine exilis* and *Rhadine infernalis*).

The dHCP and associated permit would cover lands within Bexar County and the City of San Antonio's extra-territorial jurisdictional boundaries. If the permit is approved, the Service would authorize the incidental take of the nine federally listed species for a period of 30 years.

Public meetings are scheduled for 5:00 p.m. – 7:00 p.m. at each location. The dates and locations for the public meetings are:

Tuesday, February 3rd
Casa Helotes Senior Center
12070 Leslie Road
Helotes, Texas 78023

Wednesday, February 4th
YO Ranch Conference Center
2033 Sidney Baker
Kerrville, Texas 78028

Public meetings will consist of an Open House/Exhibit Review that will provide the public an opportunity to view the dHCP, dEIS, and exhibits and to learn more about the proposed action, permit area, and species covered. A presentation of the proposed action and summary of the National Environmental Policy Act (NEPA) process will be provided beginning at 5:30 p.m. The public is invited to provide written or oral comments in an informal, open-house setting until 7:00 p.m.

The Service encourages the public to review and provide comments on the documents during the 90-day public comment period. Written comments must be received by March 19, 2015.

Information on how to obtain or review copies of these documents, or how to provide comments can be found at <http://www.fws.gov/southwest/es/AustinTexas/>.

America's fish, wildlife, and plant resources belong to all of us, and ensuring the health of imperiled species is a shared responsibility. We're working to actively engage conservation partners and the public in the search for improved and innovative ways to conserve and recover imperiled species.

The U.S. Fish and Wildlife Service works with others to conserve, protect, and enhance fish, wildlife, plants, and their habitats for the continuing benefit of the American people. For more information, visit www.fws.gov, or connect with us through any of these social media channels:
